EDUCATION

Bachelor's in Software engineering COMSATS University Islamabad 2018-22

EXPERIENCE

Backend Engineer / Technical Team Lead

APIMIO & Freelance Projects | Jun 2022 – Present | Islamabad, Pakistan

- Led backend development while taking ownership of product responsibilities including backlog management and sprint execution
- Defined and communicated product vision and roadmap in alignment with business stakeholders during interim Product Owner role
- Managed and prioritized product backlog based on business value, user needs, and technical feasibility
- Wrote and refined user stories, epics, and acceptance criteria to ensure clear development requirements
- Led sprint planning, reviews, and retrospectives ensuring timely and high-quality delivery
- Acted as key liaison between stakeholders and development team, aligning product goals with technical execution
- Identified and mitigated blockers impacting sprint and release goals
- Coordinated cross-functional teams including developers, designers, and business stakeholders
- Designed backend systems in Laravel and Node.js reducing API response time by 35%
- Oversaw development of admin platforms managing 50+ vendors and 500+ retailers
- Mentored junior developers on architecture, API design, and engineering and Agile best practices
- Implemented CI/CD pipelines using Docker, Jenkins, and GitHub Actions reducing deployment time by 70%
- Refactored legacy monolithic systems into modular API-first architectures
- Integrated enterprise services including QuickBooks and Trimble Maps APIs

IT Intern

Greybeard | Mar 2022 – Jun 2022 | Pakistan

- Supported organizational documentation and compliance initiatives for ISO-27001 certification
- Coordinated with HR, IT, Procurement, and Accounting departments for compliance readiness
- Produced 60+ policy and process documents contributing to successful ISO certification
